Page 4, Line 23, INSERT NEW FINDING OF FACT:

"23. As currently structured under Option 3, the Program caps the incentive level to 10 kW systems. This structure creates a disincentive for larger non-residential projects. Therefore, we find that the Program should be restructured to a 10 kW incentive cap for residential projects and a 100 kW incentive cap for non-residential projects. The incentive level should be set at \$3.00/watt for residential projects and \$2.50/watt for non-residential projects. TEP should set a \$500,000 cap on incentive payouts to any single customer in a calendar year."

Page 5, line 9, INSERT NEW ORDERING PARAGRAPH:

"IT IS FURTHER ORDERED that the program is approved as modified in Finding of Fact 23."

Make all conforming changes.
